Risk Adjustment Documentation & Coding

Course Content:

This presentation will discuss how provider documentation and coding impact quality, revenue and pay-for-performance programs. We will explore ways to identify opportunities for improvement in physician documentation and coding.

Learning Objectives:

- Overview of programs which use risk adjustment
- Sources for clinical documentation and challenges of translation into coded data
- Clinical documentation improvement (CDI) and the expansion from inpatient to outpatient
- Leveraging technology options for documentation improvement
- Developing risk adjustment policies

Presenter:

Joy Krush, RHIT, CCS, CCS-P, CDIP

Health Care Consulting Manager
Eide Bailly LLP

Joy has more than 25 years of experience in the health care industry with an emphasis on coding, health information management, compliance and documentation improvement. Joy has experience with ICD-10-CM and is PCS trained. She also has extensive experience in ICD-9-CM and CPT coding. Joy has experience providing physicians and other clinicians education on documentation requirements along with experience with writing appeals to RAC and other payers for DRG and APC denials.
